City hall of Rishon Lezion - Israel

URBAN EQUIPMENT  
Drinking fountain with Integrated Cooling

## DRINKING FOUNTAIN WITH INTEGRATED COOLING TO ISRAEL

SUSTAINABLE DESIGN AMOP

The grupoamop has developed and supplied, the drinking fountains to "City hall of Rishon Lezion", in Israel, with capacity for three water spouts and a filler bottle with built-in cooling system, with the following main features :

- The cooling water in response to seasonally and geographical warm climates .
- Easy access to all ages, as well as individuals with disabilities.

The development is made with eco-design principles, including inclusive-design

This is an equipment of robust design and integrated technology of high performance. !
